

# What Writers Do!

They use their **mind** to think of new ideas!

They use their **ears** to listen to other authors.

They use their **eyes** to see wonders!

They use their **mouth** to share their writing!

They use their **hands** to write, revise and illustrate!

They use their **heart** to find Love in every piece of writing.

They use their **feet** to explore their world to find new wonders to write about!

They use **paper and pencils** as tools of their writing!
